HEART HEALTH

Take control of your heart health with our two-week cardiac event monitor. Cardiac arrhythmias can be subtle, and symptoms like palpitations or light-headedness may go unnoticed or undiagnosed. Our lightweight, easy-to-wear monitor allows you to track your heart's activity at home for a full 14 days, giving us a comprehensive picture of your heart rhythm. You'll receive a detailed analysis, offering peace of mind and a path to better heart health. Don't wait—early detection can make all the difference.

The Zio[®] XT is an external, non-invasive ECG (electrocardiogram) monitor that records your heart rhythm for up to 14 days.

What is a Zio[®] XT cardiac monitor?

The Zio[®] XT is an external, non-invasive ECG (electrocardiogram) monitor that records your heart rhythm for up to 14 days.

Who is suitable for a Zio[®] XT cardiac monitor?

It is typically used on patients who may be asymptomatic or who may suffer from short-lived symptoms such as palpitations, shortness of breath, dizziness, light-headedness, presyncope, syncope, fatigue, or anxiety. It's also suitable for any patient requiring ambulatory cardiac monitoring.

BLOOD TESTING SERVICE

Ensure your peace of mind with our professional phlebotomy and blood testing services. For just £50, we provide expert blood sample collection, allowing you to send your samples to the laboratory of your choice.

Coming soon a comprehensive range of blood tests will be available directly through us. You can select any combination of tests, all performed by The Doctors Laboratory (TDL), one of the UK's leading pathology providers.

Your blood samples will be safely couriered to London, with results typically returned within 48 hours and emailed directly to you. From there, you can share your results with your GP for further guidance.

For more information or to book your appointment, call us on 01228 521014. Stay proactive with your health and let us support you every step of the way!
